POSSIBLE FOOD SAFETY ALERT

FROM GALLI PRODUCE CO. INC.

At this point these are salad kits with many ingredients including proteins.

Had there been a specific grower shipper identified we would have been notified from their Food Safety Departments.

AT THIS POINT WE HAVE LITTLE INFORMATION AND IT DOES NOT IMPLICATE ANY LETTUCE PRODUCT DIRECTLY.

After a warning from the USDA's Food Safety Inspection Service (FSIS) several food retailers have recently issued recalls of certain prepared salad kits. These kits have been available at stores like [Whole Foods](#), [Trader Joe's](#), [Walmart](#), and [7-Eleven](#). Each contains a contaminated corn product that [may be infected with either salmonella or listeria](#).
