

GALLI PRODUCE CO. INC.

07/27/2020

Let's hope, at this point, our elected officials really know what is happening on main street California.

On a different note, if there is a bright side, look how much better we have all gotten at cooking and grilling! Ping Pong! Corn Hole! And even Poker!

AVOCADOS

With California fruit in the market and new crop Mexican product the Avocado Market is steady.

CITRUS

With very limited Food Service activity, we do not have Chilean Navels, normally we would carry them in stock.

Fancy grade Lemons are becoming more expensive as well as Limes at this time.

APPLES & PEARS

There is a large pull of **USDA Family Relief Box Programs** that are keeping smaller sized apple at a premium price.

As schools programs open up more product will be available

PEARS:

Washington D'Anjous and Red Pears are starting to drop off. **California Bosc, Bartlett and Asian Pears** are starting to appear.

BERRIES

Strawberries:

Still some hot weather issues in Salinas and Watsonville, this will shorten harvest yields.

Blueberries:

The California crop is in play with Washington fruit coming in to join the mix.

Raspberries:

The recent heat wave has slowed the start and will affect yields.

STONE FRUIT

California Stone Fruit, we have seen stellar quality across the board.

Figs are back in for the second seasonal showing! Including tiger stripes and Kadota figs!

Tomatoes Etc.

Melons;

The California Desert has started along with **Turlock** varietal melons. **Crenshaw, Persian, Casaba** melons to name a few.

Tomatoes~

Local Mixed Cherry Tomatoes are in and Large sized Heirlooms are just starting to show up from Hollister!
Coke Farms and Durst Organic's

GRAPES;

Green Grapes;The California season has some nice crunchy product!

Red Grapes :

Very nice but not quite yet on par with the Green Grapes!

MOST ITEMS IN THIS SECTION HAVE ISSUES FROM HEAT AND SHORT PLANTINGS

Asparagus

Mexican product will decrease as heat and rain has affected production.

Green Beans-

Beautiful Local product.

Broccolini~

Steady, good quality.

Celery .

Steady

Snap and Snow

Peas Supplies have improved and prices are moving down.

Artichokes,

available but they are the Globe Variety not the pointy Coastal Variety

Squashes~Cucumbers~English Cucumbers~Eggplants ~ Bell Peppers and Chiles.

Many local varieties of zucchinis are in from Mixed Baby to large Mixed!
Mixed Local Chile Peppers too!
Padron, Gypsy, Shisito!

BROCOLLI ~ CAULIFLOWERS ~ CORN

Broccoli ~

Some recent heat related issues mostly in appearance

Cauliflowers~

This product like broccoli, is sharing the same predicament.

Colored Cauliflower is now available.

CORN:

Good quality out of Brentwood and the Sacramento Dixon area!

LETTUCE ~ ROMAINE ~ SOFT LEAF

All items in this category have been short planted by all growers. It has

been impossible to predict volumes as Food Service is close to non-existent at this time. Be-

cause of this, prices have been artificially on the high to mid range.

***Our Local Growers are starting to really roll!
Salinas, Hollister, Aromas,***

Mixed Heirloom Squashes

Asian Pears

Mixed Varietal Melons

Dragon Fruit

Black Mission Figs ,Kadota, Tiger Stripes will be rolling in!

Mixed Carrots of all sizes!
